I have done masters in Business & Management from Chicago Central University. Before getting enrolled in this program I was working for a leading multinational company where I was seeking career growth. Despite having all the required skillset the only thing I lacked was a master's degree. The online flexible learning hours at CCU helped me seek what I was long chasing for. Thank you CCU!

I have done my bachelor's in applied arts from CCU. All of my mentors and professors in CCU were generous and supported me in difficult times. In addition, the courses taught in CCU were designed in such a way that made the learning easy and understandable. Now I plan to get enrolled in the master's program from the same university.

**Albert Paul**  
Bachelor's in Applied Arts  
Class of 2019

I did my bachelor's in education from CCU. Throughout my study, I found CCU's faculty members have both a depth and breadth of knowledge in the discipline and be able to communicate this knowledge effectively to the students. Currently, I'm a professor at CCU, and the same knowledge I'm trying to cultivate amongst my students as I pursue my career here in teaching.
